Dear Dennis, 6/19/95

Thanks for the Beacon letters and the LIFE which as you noticed is not the issue with the White article on his notes.

The Beacon letters are close to a form with which I was once very familiar.

I t ink it confirms my im ression that they made a policy decisions at the time of the Report, probably Warren-sup ort based.

I did not rewrite or edit what I'd written about Newman and I've a student who will be retyping it in her free moments. I'd have a diskette. She can make them.

But the graduate I've had on Mailer got a job, so that will be delayed.

One of Jerry's students did an honors paper on the FBI'd conttol of the Commission. Quite good. Needs a few correction and the last two chapters rewritten. When she is finished with the exhibits if will be a small and a useful book I hope can be published.

Pitts. book editor got an Ok and will be here in 10 days.

Thanks and best,

Harold
